

Tutorial: Linux shell

Description	AI
Purpose	In
Audience	<p>This module is intended for:</p> <ol style="list-style-type: none">1 The general public2 K-12 and college classes on cyber defense3 preparation for proficiency in the use of tools and a computing environment suitable for the study of cyber defense
Objectives	<p>After completing the module:</p> <ol style="list-style-type: none">1 Fa2 Fa3 Un
Keywords	shell,
Category	cybersecurity > education
Delivery	java applets and written documentation in pdf format
Team	John Franco and Ethan Link
Assessment	The applets provide the means for experimentation. Questions are asked in the documentation that help with the set up of experiments. The ideas that learners come up with is evidence that the module was successful.
Workflow	No particular schedule was established
Environment	All materials are contained in a single jar file. The jar file can be run on any computer where java version 11 or higher and some pdf reader such as acroread or evince are available. The jar file may be executed in the cyber range or learners may download the jar file (which is considered to be an executable file) and run it on their personal computers.
